Summary

Final-year Computer Engineering student skilled in Python, machine learning, RAG pipelines, LangChain, and FastAPI, with hands-on experience building AI-powered applications. Seeking opportunities in AI/ML and software engineering to develop practical, impactful solutions.

Education

C.K. Pithawala College of Engineering and Technology, GTU — Surat, Gujarat, India
B.E. Computer Engineering | CGPA: 8.28/10 — *Aug 2023 – Present*

Technical Skills

Languages: Python, SQL, C
AI/ML & Data Science: Machine Learning, NLP, EDA, Data Preprocessing, Feature Engineering, Model Evaluation
Libraries: Pandas, NumPy, Scikit-learn, PyTorch, TensorFlow, Matplotlib, Seaborn, Sentence Transformers
GenAI: RAG, LLMs, LangChain, LangGraph, Hugging Face, FAISS, Embeddings, Prompt Engineering, Ollama, Groq API
Frameworks: FastAPI, React, Streamlit
Databases: PostgreSQL, MySQL, MongoDB, Supabase
Tools & Platforms: Git, GitHub, Docker, Postman, Jupyter Notebook, Google Colab, VS Code, Vercel, Railway, Render

Projects

Security Monitoring Agent — **GitHub**

- Developed a Windows endpoint monitoring agent to collect system, process, and Windows Event Log telemetry for centralized security monitoring.
- Implemented event normalization, local buffering, multi-agent LAN communication, and a central FastAPI server with rule-based security alerting and a monitoring dashboard.
- Researched Wazuh detection rules, dependencies, compatibility, and validation; packaged the agent as a distributable executable/installer.
- **Tech:** Python, FastAPI, Windows Event Logs, Security Rules

DocQuery AI (RAG-based PDF Chatbot) — **GitHub | Preview**

- Developed a full-stack RAG application for context-aware PDF question answering using React, FastAPI, LangChain, FAISS, Hugging Face embeddings, and LLMs.
- Built REST APIs with authentication, persistent conversation history, user-specific document management, and PostgreSQL/Supabase storage.
- Implemented document preprocessing, semantic retrieval, conversation memory, evaluation logging, and LLM API integration.
- Migrated the application from Streamlit/SQLite to a production-style React + FastAPI + PostgreSQL architecture and deployed the frontend and backend using Vercel and Railway.
- **Tech:** Python, React, FastAPI, LangChain, FAISS, Hugging Face, PostgreSQL, Supabase, Groq API

ProjectPath AI (AI Career Project Advisor) — **GitHub | Preview**

- Built an AI-based platform for skill analysis, gap detection, and personalized project recommendations.
- Implemented NLP-based resume parsing for skill extraction and normalization with a rule-based recommendation engine.
- **Tech:** Python, Flask, React, Rule-based Intelligence, NLP

Experience

CyberSecurity Umbrella — Surat, Gujarat, India
AI/ML Intern — *July 2026 – September 2026*

- Developed Security-Agent, a Windows endpoint monitoring system for collecting system, process, and Windows Event Log telemetry for centralized security monitoring.
- Worked on FastAPI-based security monitoring, event normalization, local buffering, multi-agent LAN communication, rule-based alerting, and executable packaging.
- Built a RAG-based PDF question-answering pipeline using LangChain, FAISS, Hugging Face embeddings, and LLM APIs, with semantic retrieval, source citations, and evaluation logging.
- Contributed to the Advanced Intern Management System (AIMS), implementing task-management enhancements and report summarization features based on mentor requirements.

Achievements & Certifications

- Ranked 4,593 out of approximately 90,000 teams in Amazon ML Challenge 2026 (top 5%).
- Participated in multiple hackathon, including Smart India Hackathon 2025 and the ISRO Bharatiya Antariksh Hackathon.
- Completed IBM SkillsBuild Gen AI & Cloud Computing Internship – BharatCares, IBM SkillsBuild & AICTE (2026).
- Completed Advanced Training in AI/ML, Deep Learning, Edge Computing – SAP & Edunet Foundation (2025–2026).
- Completed Scientific Observations from Space, ISRO START Programme (A+ Grade; 2026).
- Certified in The Joy of Computing Using Python – NPTEL, IIT Madras (2025).

Extracurricular Activities

- **Student Coordinator, Institute Innovation Council (2023–2026)** – Coordinated with a 4-member core team to plan and execute technical events.
- **Event Coordinator, CKP TechFest 2025** – Managed Shark Tank innovation event, handling logistics, promotion, and participant coordination.
